

SUMMER SAVINGS FROM CITC

(888)786-CITC (425)776-4950 info@citcfx.com www.citcfx.com

Along with all that rest and recuperation, how about a break on some summer equipment you've been waiting to purchase forever! It's time you had a flipped out Super Foam Dome foam machine, a bodacious Bubble Max self-filling machine, an amazing no-drip Mistifyer misting system, a show-stopping ShotMax continuous launcher, and some frantic Hurricane II DMX fans for that extra bunch of cool fun.

SUPER FOAM DOME

Fastest, foamiest, driest foam ever. This is the original, and the copycats still can't get it right!

Indoor Foam Dome fluid leaves no residue!

Outdoor Foam Dome fluid wetter, "funner," cheaper!

By one unit and receive a free 5 gallon jug of fluid, a retail value of \$420.00 absolutely free!

BUBBLE MAX AUTO-FILL SYSTEM

Only bubble machine on the market today that automatically refills itself and has an easy clean feature. This machine includes a "show tuff" bubble machine, fill and drain tubing, fan, and stand. The fan keeps bubbles up to 40' out without a residue buildup.

The degree tilt of the Director Jr. fan makes this the most versatile bubble machine for permanent or hard to reach installations. During the month of July, buy one unit and receive a free 5-gallon cubitainer

of Bio-bubble fluid, a retail value of \$139.95 absolutely free. [More Information Here](#)

MISTIFYER

Can't have normal fog or haze in your venue? Need some atmosphere that doesn't use any chemicals? Try CITC's Mistifyer that comes in a variety of size lengths and nozzles.

Easy to put together is less than an hour. Anti-drip nozzles insure no drips. Universal DMX allows for full on/off control. Easy shape tubing makes artistic design dreams come true.

Purchase any Mistifyer system and get free shipping during the month of July! See the new photo gallery with projection screen video at:

Hurricane II DMX

The Hurricane II wind sails quietly with high volume and lots of speed. Although this is a 3-speed fan, the built in DMX makes it respond just like a variable speed. Sold worldwide, these units are rugged and dependable. Now with a new steel wheel, the sharp blades make air movement quieter. Very low motor sound makes this perfect for stage and in theatres. Includes balanced bracket for hanging or mounting.

Safety cable included with bracket. Swivel 360 degrees horizontally or vertically. **This stand comes FREE during the month of July. (Value \$125.00)** See all the new photos now at:

and view the video clip at: http://www.citcfx.com/product_hurricane_2.php

SHOTMAX LAUNCHER

The ShotMax launcher is like having the most fun and exciting guest show up at your event. Instead of having just one shot at a time of confetti and streamers burst through the air, this product allows for continuous bursts of confetti and streamers. How fast does the confetti come out? As fast as you can suck it in with the attached hose. Make your event interactive by having guests feed the tube and fill the atmosphere with bursts of color. During the month of July, each ShotMax comes with 4 lbs. tissue streamers or 3 lbs. stacked confetti. (In stock colors only). [Click here to go to Video Number 1](#)
