DESIGNER TRUSS

Exclusive North America Distribution by CITC

Unique Designer Truss made from a polycarbonate that's easy to assemble and will make your products and lights stand out more than ever before! Moving lights will make your entire truss area come alive! "Float products" in the air. See this incredible product on display at CITC at LDI.

SuperSHOTMAX

See the latest Super Shotmax 1.5hp, continuous output, 3 lbs/min confetti with each magazine. Mounted on a dolly, this tilts to 60° angle, increasing versatility. Good for streamers, nerf balls, stuffed animals, dollars, etc. Streamers fly 40' to 50'. Confetti flies 50' to 60'.

MISTIFYER

The new **Mistifier** for theatre fog, haze, and mist. Uses only clean, **filtered H2O**.

New roto-molded cover and more safety features:

- Multiple filters
- Safety switch
- Fan cooled
- Easy access
- Instant on/off
- Anti-drip

Flamemax

Silk Flame

This brand new silk flame effect is a full five feet tall! Includes 10 MR color lamps and 6 fans for a very realistic flame effect. Runs cool continuously.

SMOKE FACTORY FOG EFFECTS

Exclusive North America distribution by CITC

Scotty II

Battery operated. Strong output

TourHazer II

Creates a fine water haze. Variable output with DMX

Captain D DMX

Very high continuous fog. Variable speed. Remote controlled.

Captain D Case

Perfect for the latest digital technology
