## BORN TO BE WILD!

Brought to you exclusively by CITC, the Maniac is the most spectacular, spellbinding fog machine you've ever seen. In fact, we would go so far to say that it's quiet possibly the most exciting piece of special effects equipment since the original snow machine, the CITC Little Blizzard.

Designed for creative stage lighting designers as well as DJ's that really know how to rock, the Maniac was born to be wild. It's fast, it's vibrant, it's powerful, and it's very well made.

Extensive testing has been done by CITC to ensure the unit will be trouble-free and long-lasting. Surprisingly affordable, adding the Maniac to your equipment line will be one of the best audience pleasers you've ever had.

Get yours. Be wild.
