

Bubble Max System™

New and improved, this bubble machine is the preferred favorite of special event coordinators. This system will send bubbles up to 40' (12m) and boasts having the lowest residue and the least amount of splatter of any bubble machine anywhere. The larger reservoir produces a continuous three hour output. 2-1/2 quart (2.4l) trays and one 2 quart (1.8l) tray allow for 3 hours continuous use. DMX FX-15 Switchpack, and hanging bracket available. 1200 - 1400 bpm! The system includes the bubble machine, fan and stand. 230v unit includes transformer.

Specifications

#100190 120v #100195 230v

Dimensions: (Machine, Fan and Stand)

20" x 16.75" x 27" (51cm x 43cm x 69cm)

Weight (Machine, Fan and Stand): 21lbs. (10kg)
