

ShotMax™

The ShotMax™ can shoot product out simultaneously and continuously as fast as you can feed it (confetti stacks shoot thickest and farthest) to approximately 25' (7.62m). Simple and uncomplicated. The confetti is never touched by blades or motor, and is built with safety standards in mind! Compared to the competition, the noise is reduced 75%. No CO₂ needed.

This revolutionary machine can launch artificial snow, tissue confetti, streamers, fog, haze, a focused blast of air, Nerf balls, or any soft items. Load tissue confetti in stacks for continuous aerial excitement! Shoot falling snow for that evenly distributed look. It even breaks up the clumps! Shoot low-ground fog for a powerful simulation of a 50' CO₂ blast. Shoot even farther with the addition of a Hurricane fan. The possibilities are endless to match your creativity!

Specifications

#100260 (230V P/N 100265)

Weight: 26 lbs / 11.8 kg

Size: 10" x 10" x 19" (25.5cm x 25.5cm x 48cm)

Shipping Weight: 30 lbs (13.6 kg)

Shipping Box Size: 14" x 14" x 27" (36 cm x 36 cm x 69 cm)

DMX: Built-in DMX (optional)

Length of nozzle: 24" (61cm)

Length of hose: 36" (92cm)

Inlet and outlet id: 2" (5cm)

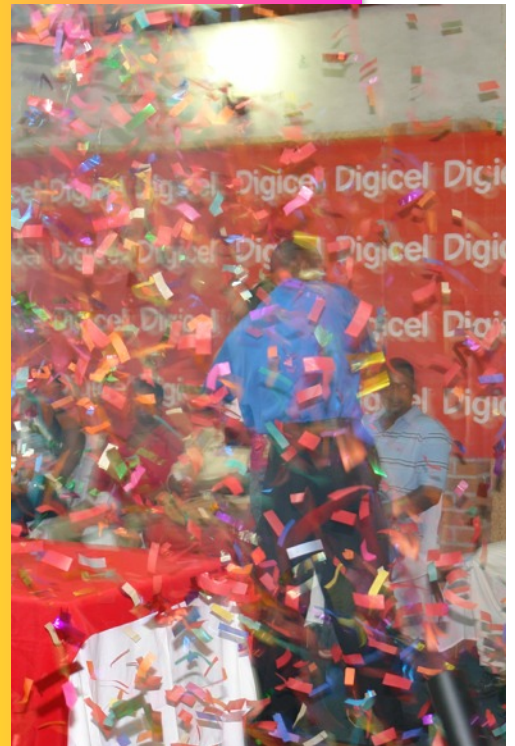

Bracket: Hanging or standing bracket (screw down or use C-clamp)

Operation time: Up to 30 min. w/5 min. off each use

Electrical Supply: 120 VAC/60Hz - 10A; 230 VAC/50Hz - 5A

Fuse: 10 A - 250 VAC

Limited Warranty: One Year
