

Single Auto-Launcher™

The most reliable and powerful electric controlled (disposable CO₂) Celebration Launcher in the WORLD!

This Auto-Launcher comes complete with one 32" "Quick Connecting" Cannon tubes. It is truss mountable or can be placed on the ground. The Auto launcher also comes with a 3 year warranty based on proper usage. Auto Launchers are designed to be 100% "Fail Proof" against any Pressure Leaks. These Patented Launcher systems are capable of perfect and predictable results each and every time because they retain the CO₂ gas in the CO₂ Cylinder up until the moment they are activated. (Beware of our competitors' products that offer systems that pierce the CO₂ Cylinders first prior to the activation; such systems are unreliable and prone to problems!)

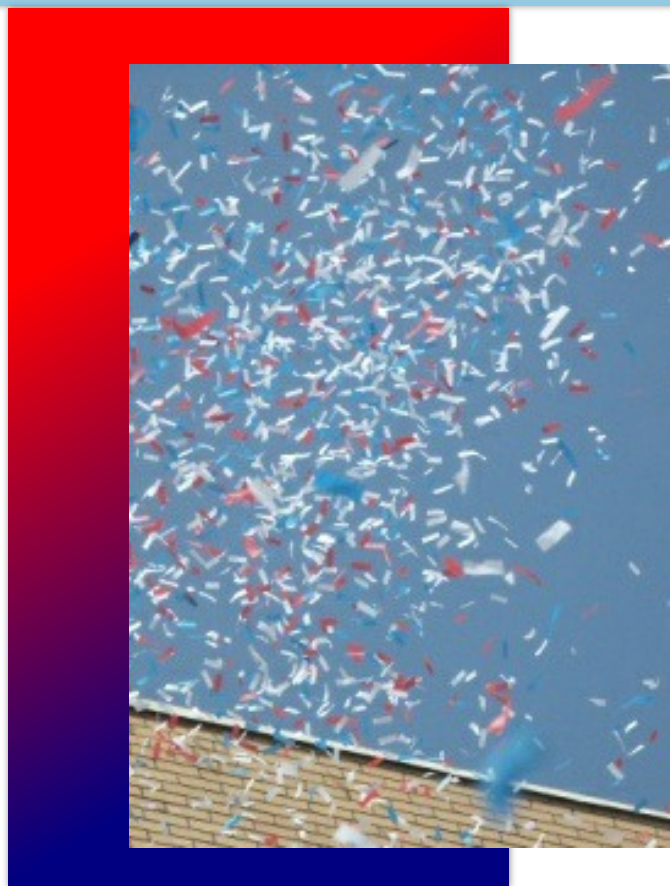

Specifications

Power requirements: 120vac at 5 AMPS.

Dimensions: 6"x 4"x 12" (15.25cm x 10.15cm x 30.5cm) plus 32" (81.25cm) tube.

Total weight: 10 lbs.

U.S. Patent # 5,015,211 & U.S. Patent # 5,149,290
